

Mapleton City Planning Commission Staff Report

Meeting Date: April 22, 2010

Item: 6

Applicant: Mapleton City

Prepared by: Matt Brady

Council Action Required: Yes

REQUEST

(Continued 3-11-10 and 3-25-10) Mapleton City requests approval of the draft Transportation and Trails Master Plan, as recommended by the Transportation Advisory Commission.

BACKGROUND:

The Transportation Advisory Commission was specially formed by the City Council a little over 1 year ago to recommend revisions to the City's Transportation Plan. The draft included in this report is the plan recommended by the Transportation Advisory Commission. At the March 11, 2010 Planning Commission meeting, Staff presented this item to the Planning Commission for the first time, and requested continuance of the item to the March 25, 2010 Planning Commission meeting, in order to give the Planning Commission additional time to examine the draft plan. The Planning Commission also suggested additional publicity for the proposed plan, including additional information on the main page of the City website, displays at the City Center, and publication in the City newsletter. The plan was discussed further at the March 25, 2010 Planning Commission meeting, and the item was again continued to the April 22, 2010 Planning Commission meeting to allow additional time for the publicity to spread. Staff has done the requested publicity, and is prepared to discuss the proposed plan further at the night of the Planning Commission meeting. The Planning Commission could make a recommendation to the City Council regarding the plan if the Commission determines that the proposed plan should be moved forward.

STAFF RECOMMENDATION:

Staff recommends approval of the draft Transportation and Trails Master Plan, as recommended by the Transportation Advisory Commission.

See attachment from the previous staff report (3-11-10) for proposed Transportation & Trails Master Plan. Or, you can find the proposed plan at www.mapleton.org on the front page of the website.
